

Hadijah Larasti

Senior Product Designer & Researcher

(+62)856-884-0337 · larasti.hadijah@gmail.com · [Website](#) · [Github](#) · [LinkedIn](#)

PROFESSIONAL SUMMARY

Senior Product Designer and Researcher with 6.5+ years of experience building digital products across fintech, edtech, FMCG, aquaculture, and childcare. Proven track record of driving measurable business outcomes, from reducing settlement cycles and improving field productivity to launching zero-to-one products in ambiguous startup environments. Experienced in leading end-to-end design: research, ideation, systems thinking, facilitation, and cross-functional collaboration with PMs, engineers, and C-suite stakeholders. Actively leveraging AI-powered workflows, including Claude AI, Figma MCP, and generative prototyping tools, to accelerate design delivery and enhance the quality of deliverables. Open to remote and relocation opportunities.

Languages: English — IELTS 7.0 (C1) · Indonesian — Native

PROFESSIONAL EXPERIENCE

Freelance & Collaborative Projects | Product Designer · Remote · Freelance / Project-based · Nov 2025 – Present

Independent design work spanning brand activation, accessibility, and international product launch.

- Designed the **Kahf Decode AI Scanning Experience**, a brand activation campaign leveraging AI-powered skin analysis. The experience attracted over **10,000 visitors** during its activation period.
- Collaborated with a University of Arizona PhD student to design a mobile app for **BISINDO (Indonesian Sign Language)** learning practice, aimed at students studying sign language education.
- Contributed to **Interaktiv Pte Ltd's** effort to **bring their robotic innovation to an international audience in China**, supporting the design of materials and experiences for cross-market presentation.

MainStory (PT Mainstory Teknologi Indonesia) | Senior Product Designer & Product Manager · Jakarta · Full-time · May 2025 – Oct 2025

Early-stage childcare platform startup (Daycare Pintar, Homecare Pintar) — Jakarta, Indonesia.

- Operated as a hybrid designer-PM in an early-stage startup, leading product discovery, scoping, and stakeholder alignment directly with the CEO to prioritize a lean roadmap.
- Designed the supply-demand matching solution for Homecare Pintar, **cutting the matching workflow from 5 days to 1 day, an 80% reduction in processing time, with 100% adoption rate among the operations team from launch.**
- **Drove early churn reduction efforts for Daycare Pintar (first-30-day drop-off)** by redesigning the online-to-offline (O2O) experience, spanning the nanny journey and end-user app content flow.
- Identified and designed AI-assisted use cases for KinderGPT, improving personalized recommendations for both operations and end customers.
- **Cut website rebranding development timeline from 2 weeks to 1 week** by integrating AI tools (Builder.io) into the front-end development process.

eFishery (PT Multidaya Teknologi Nusantara) | Interaction Designer · Bandung · Full-time · Jan 2023 – Feb

2025

Southeast Asia's leading aquaculture tech startup (Series D) – connecting fish and shrimp farmers across Indonesia with smart feeding technology and financial services.

- Served as the primary designer across 3 core business teams: Productivity team, Financing team, and Cooperative, owning full design cycles from research to delivery on internal productivity tools.
 - Sales Diary App (Productivity team): Led UX improvements over 12 months, resulting in a **50% increase in daily field visits and a near-zero accounts receivable overdue rate**, directly contributing to GMV growth. **Achieved 100% team adoption.**
 - Field Collection App (Financing team): Designed the product from scratch over 6 months, replacing an outsourced tool. **Boosted collector productivity by 180% and delivered Rp90M/month in operational cost savings. Adoption rate: 100%.**
 - Gold Fish App (Payment Team): Led design of a finance settlement tool that **compressed the settlement cycle from 3 days to 1 day**, dramatically improving operational efficiency for the payments team. **Adoption rate: 100%.**
- Served as sole designer on MEGA/Coop, a strategic zero-to-one cultivation management platform. Navigated significant business–technical ambiguity to deliver an end-to-end user flow covering 100% of cultivation needs – from assistance to harvest management. **Successfully piloted across 4 regions: Karawang, Subang, Garut, and Purwakarta.**

Ruangguru (PT Ruangraya Indonesia) | Interaction Designer · Jakarta · Full-time · Oct 2021 – Nov 2022

Indonesia's largest edtech platform – serving 15M+ students, teachers, and professionals across K-12 and professional learning.

- Designed across multiple products serving students, teachers, and professionals, including Roboguru, Ruangbelajar, Ruangkelas, and Skill Academy.
- Led gamification design for Roboguru (4M+ students, 42M+ questions answered): introduced a points-based system that increased user answer rates, expanded forum participation, and **reduced operational costs by 2x. Roboguru's growth has also reached its peak since its launch in 2020.** Collaborated with a team of 5 across design, research, and product.
- Initiated and facilitated cross-functional accessibility workshops for Ruangbelajar, producing a lightweight content framework aligned to student learning goals – a first-of-its-kind initiative within the team.

SALT (PT Ako Media Asia) | UI/UX Designer · Jakarta · Full-time · Dec 2018 – Oct 2021

Digital transformation consultancy serving enterprise clients across finance, FMCG, and telecoms in Indonesia.

- Delivered **28 client projects** over nearly 3 years at a digital consultancy, spanning research, ideation, and end-to-end UX design for enterprise clients including Unilever, Prudential, Mandiri, Danone (Nutricia, SGM, Bebeclub), Sampoerna, and Telkomsel Orbit.
- Led qualitative research – including FGDs, in-depth interviews, competitor reviews, and usability testing – and translated insights into actionable design recommendations for both existing client accounts and new business pitches.
- Developed a UX Research methodology module adopted by the broader creative team, formalizing research practices across the agency.
- Recognised as **one of the agency's most outstanding employees in 2019.**

Rakamin Academy · Binar Academy | UI/UX Design Mentor & Course Facilitator · Jakarta · Freelance · Apr 2021 – Jan 2024

- Designed and facilitated UI/UX design curricula across both platforms, teaching and mentoring **100+ students** on research methods, design thinking, and portfolio development.
